Richard,

Attached is a slightly revised draft we hope to get out today; one version has the changes highlighted.

If agreement can't be reached today on these minor revisions, we would at least like to propose in the interim to the state that the three governments meet as a next step. Ignacio can do that in an email today to Ms. Foss noting that a formal response will be made shortly.

Regards,

Erik

Subject: Draft EPA Letter Tower Standard

Dear Erik,

The Lac du Flambeau Band of Lake Superior Chippewa appreciates the opportunity to consult with EPA Region 5 regarding EPA's response to the February 28, 2017 letter from the Wisconsin Department of Natural Resources (WDNR). The WDNR letter concerns an UST site located within the reservation environment that poses health and safety risks to the reservation population and the resources and quality of Haskell lake. As requested, we have made several revisions to the draft letter for EPA's consideration that we believe further clarify the status of the site and the relationship among the parties. Attached for your information is both a redline version (v-3) and a clean version (v -4) of the revised letter.

Please feel free to contact me if you have any questions.

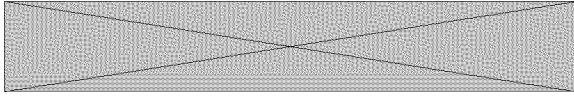

Have a good weekend.

Richard
